LLOYD GEORGE HAS WON POINT

British Workers Decide They Must Go On or Go Under in Great War.

LONDON, Jan. 20.—The first month of 1918 has been one of the most trying of the whole war for the British people. Now the nation seems to have weathered its doubts and disagreements and accepted the watchword, "we must go on or go under." The labor unions met the demand upon them for more men in khaki with a critical and doubtful spirit; they insisted upon knowing the government's exact war program and were inclined to believe that peace negotiations were possible. These questions have been threshed out with the government fully and freely, with straight talking on both sides, and the government seems to have carried the day.

This result is due principally to Premier Lloyd George and it strengthens his position and authority for the time being.

The labor party's conference at Nottingham this week will be one of the most important in its history. Proposals for a new constitution will be considered, which will admit all brain workers to the party's ranks on an equal basis with the trade unionists. This is called "the hand and brain" movement, and the laborites expect that it will make their organization the largest and strongest political body in the kingdom.

GEN. SIR DUFF IS FOUND DEAD

LONDON, Jan. 20.—General Sir Beauchamp Duff, commander-in-chief of the British forces in India from 1913 to 1916, was found dead in his bed in a west end club this morning.

General Duff, who had a long and distinguished army career, winning honors in active campaigning and filling numerous responsible executive positions, including that of assistant military secretary for Indian affairs at the war office and the posts of adjutant general of staff in India before becoming commander-in-chief there, was in his sixty-third year. In August, 1916, he was succeeded in the Indian command by General Monro.

Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—"exercise." Today it is "Take Marmola Prescription Tablets." Friends tell friends—doctors tell their patients—until thousands know and use this convenient, harmless method. They eat what they like, live as they like, and still lose their weight, three or four pounds of fat a week. Simple, effective, harmless Marmola Prescription Tablets are sold by all druggists—a large case for 75c. AMERICANS IN A GAS EXPLOSION

PARIS, Jan. 21.—A gasoline can exploded yesterday morning as some American soldiers were filling an automobile tank at the famous Moulin de la Galette dancing hall, now used as a camouflage school for the American army. The tank also exploded and two Americans were seriously injured. They were taken to the American ambulance hospital at Neuilly.

RUSS ASSEMBLY NOW DISSOLVED

Bolshevik Order Sailors to Break Up the Meeting of People's Representatives.

PETROGRAD, Saturday, Jan. 19.—The constituent assembly has been dissolved by the Bolshevik authorities. It is officially announced today. Sailors closed the assembly at 4 o'clock this morning and a decree of dissolution will be issued during the day, the official statement says.

The text reads: "When the constituent assembly voted against the declaration made by the president of the central executive committee after an hour's deliberation, the Bolsheviks left the hall and were followed by the Socialist-Revolutionists of the left on the assembly showing its unwillingness to approve the manner in which the peace negotiations were being conducted. At 4 o'clock this morning the constituent assembly was dissolved by sailors. Today a decree dissolving the assembly will be published."

The all-Russian railway men's congress has passed by a vote of 273 to 61 a resolution supporting the constituent assembly and calling upon the people's commissioners to agree with the majority with a view to the formation of a government responsible to the assembly.

From Moscow it is reported that many persons were wounded and others killed as the result of the Red guard firing on demonstrators there in favor of the constituent assembly.

The Japanese embassy here, in an official statement, made denial of the reports that Japanese forces had been landed at Vladivostok.

Regarding the peace negotiations at Brest-Litovsk, Count Czernin, the Austro-Hungarian foreign minister, is quoted here in an interview declaring that if peace did not result from the negotiations it would not be "because of any intentions of ours in regard to conquests."

STRENGTH And How To Gain It

INSTEAD OF EXERCISES, PATENT FOODS AND MEDICINES, TAKE PHOSPHATE WITH YOUR MEALS.

The demand today is for men and women who are strong in every sense of the word—possessing the physical strength necessary to endure hardships and fatigue; the mental strength to grapple with difficult problems; the nervous force which endows the body with vigor and vitality; the will power to triumph over adversity and turn defeat into victory. But such glorious strength is impossible so long as your nerves are weak and exhausted, and therefore if you would be really strong you must first care for your nerves. Weak, exhausted nerves need food, and for this purpose physicians strongly recommend the use of the organic phosphate known among druggists as bitro-phosphate which Culley Drug Co., McIntyre Drug Co., Sullivan Drug Co., and all good druggists stock in 5-gr. compressed tablets, so that if you feel your strength is failing from any cause, you should get a supply of these bitro-phosphate tablets and take one with every meal. Practically all of the minor ailments afflicting mankind, as well as many of the more serious maladies, can be traced to nervous exhaustion and lowered vitality, and probably this explains why such a remarkable improvement in the general health is invariably noticeable when bitro-phosphate is taken as directed, and the nerves are thereby revitalized and made strong.—Advertisement.

MINIMUM PRICE FOR HOGS.

SAN FRANCISCO, Jan. 20.—A minimum price for hogs in the Pacific coast states was fixed today by a voluntary agreement between more than thirty packers representing California, Oregon and Washington and the United States food administration, according to an announcement here tonight by the federal food commission for California.

The new minimum price, set at one cent under the food administration minimum effective on the Chicago market, which now is \$15.50 per hundred, was expected, it was said, to result in a big increase in pork production in the states effected by the agreement.

DISORDERS IN SPAIN.

MADRID, Jan. 21.—Disorders occurred yesterday at Alicante, the chief seaport of Valencia. They are reported in an official telegram from Alicante, which states that a mob forced the factories to cease work and attacked shops and private houses. Women of the middle class were compelled by the demonstrators to join them, it is declared.

The civil guard fired on the rioters, killing three persons and seriously wounding four others.

SEA FIGHT OFF DARDANELLES

Former German Warships Breslau and Goeben Sunk or Beached by British.

LONDON, Jan. 20.—In a naval action between British and Turkish forces at the entrance to the Dardanelles, the Turkish cruiser Midulla, formerly the German Breslau, was sunk and the Sultan Yavuz Selim, formerly the German Goeben, was beached. This announcement was made by the admiralty tonight.

The official statement says: "The Goeben and Breslau—Turkish names Sultan Yavuz and Midulla—with destroyers, were in action with the British forces at the entrance to the Dardanelles this (Sunday) morning. The Breslau was sunk. The Goeben escaped, but has been beached, evidently badly damaged, at Nagara point, in the narrows of the straits.

"The Goeben is now being attacked by naval aircraft.

"Our losses reported are the Monitor Raglan and a small monitor, the M-28."

The German cruisers Breslau and Goeben were in the Mediterranean sea at the outbreak of the war and fled into the Dardanelles, seeking safety from the British and French warships that sought their destruction.

Since then their activities in the Dardanelles, at the Black sea entrance to the Bosphorus and in the Black sea along the Turkish Asiatic, the Russian and the Rumanian coasts have brought them fame for intrepidity and audacity as sea wolves like the Dresden, Sessler and the Karlsruhe.

Reaching Constantinople in the middle of August, 1914, the British government immediately protested against the German warships being accorded refuge. Turkey promised that they would be interned, and placed out of commission until the end of the war. Later, however, it was announced that Turkey had purchased the cruisers and given them the new names of Midulla and Sultan Yavuz Selim.

Activity in Black Sea. Then followed frequent reports of the activity of the warships in the Black sea, bombarding enemy land positions and engaging or being engaged by ships of the Russian Black sea fleet. Although the Turkish and German war statements frequently announced victories for the recaptured Germans, the Russian admiralty on numerous occasions told of how Russian warships had sent them scurrying from the Black sea into the Bosphorus, damaged, on fire and showing the wounds the Russian shells had given them.

Shortly afterward, however, the Midulla and her sister ship again would appear, and the game of hide and seek between them and the Russians would go on again until another battle took place, the Turks in the meantime always having been successful in sinking numerous cargo boats, ranging from the smallest fishing craft to good-sized steamers.

Hit by Airmen. The latest account of the Sultan Yavuz Selim was in July of last year, when the British admiralty reported that British airmen had dropped bombs on the vessel during an air attack on the Turkish fleet off Constantinople, in the Golden Horn. Direct hits were observed on the Sultan and other vessels, aboard which explosions occurred and fires broke out. The admiralty report said the former German cruiser was the center of the attack, and that it was safe to presume she would be out of action for several months as a result of her injuries.

The prediction proved true, as the Sultan Selim since then has not been mentioned in any of the reports as being engaged. The last account of the Midulla was in June, 1917, when the Turkish war office reported that vessel in a successful engagement, together with other Turkish units in the Black sea, against Russian land positions and small war craft.

Considerable criticism of British and French naval commanders has at times been expressed over their failure to prevent the Goeben and Breslau from getting out of the straits of Messina at the outbreak of the war and reaching a port of safety in Turkey.

ARTILLERY IN ACTION.

ROME, Jan. 21.—Lively artillery fighting in the Monte Asolone sector on the Italian northern front is reported in yesterday's war office statement. There also was lively artillery activity along the Piave line. No infantry operations of moment are noted in the official statement.

TWO PER CENT OF SOLDIERS UNFIT

Cannot Meet the New Mental Tests Applied by the Army.

WASHINGTON, Jan. 20.—Application of the new psychological test to all enlisted men and newly appointed officers of the army has been ordered by the war department to aid in the task of weeding out the mentally unfit and classifying officers and men for special service or promotion. It was announced today that the chief of staff had approved the recommendation of the plan by Surgeon General Gorgas, and that it would be carried out at once.

Special buildings will be provided at each of the thirty-one divisional training camps for the psychology experts.

The plan is the outgrowth of psychological examinations conducted at Camps Lee and Devens, where 30,000 men and 5000 officers were subjected to tests devised by Major Yerkes of the medical corps to determine their military suitability. Summarizing the results the department announcement says:

"Approximately 2 per cent of the drafted men as they appear in the camp are so seriously defective in mental development that they are either menaces or nuisances in military organization."

"The intelligence ratings of their men supplied to company commanders greatly assist the latter in properly placing and effectively using men."

Her Grandmother Used Sage Tea To Darken Her Hair.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded, or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By evening the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

HOLD TIGHT TO THE LIBERTY BONDS

WASHINGTON, Jan. 21.—Liberty bond investors were warned by Secretary McAdoo last night to beware of irresponsible persons offering other securities in exchange. In a statement appealing to bondholders to "hold fast to the best investment in the world," Mr. McAdoo said that "while some of the securities, or so-called securities offered in exchange for government bonds are of sound value, there is no doubt that a large percentage of them are worthless."

WESTERN OIL MEN ARE TO CONFER

DENVER, Colo., Jan. 21.—Oil producers of Colorado, Utah, Wyoming, Montana, Oklahoma and Kansas will meet in Denver Tuesday and Wednesday of this week to discuss the Walsh-Pittman coal and oil land leasing bill recently passed by the United States senate. Announcement of the meeting was made tonight by John T. Burns, western secretary of the American mining congress.

Plans of the administration, announced at Washington yesterday, to announce sections 16 and 17 of the senate bill brought the decision to call the meeting, local oil men predicting that the amendments to the bill would end further development of the Salt Creek field in Wyoming and work harm to the small operators.

Tuesday Senator Key Pittman of Nevada, one of the authors of the bill; David T. Day, oil expert of the bureau of mines at Washington, and H. H. Schwartz, former attorney general of the land office at Washington, will be here for conferences with the oil men. Local oil men express themselves as satisfied with the senate bill as it now stands.

Buy Musical Instruments From Musicians

The purchase of a musical instrument is a transaction that should be attended to with the greatest of care and economical consideration. It is a transaction that has to do with the home, in most instances, and what effects the home moulds largely the better temperament and soul-power of a community. The musical instrument in the home is the ever present entertainer and it should be sweet, mellow and voluminous of tone. It should also be a piece of home furniture of lasting quality and rare beauty.

Musicians best understand musical instruments and, if they are honest dealers, they carry the best possible line of instruments commensurate with prices that fit the average home. We profess just such careful consideration and gladly stake our reputation as musicians and "on the square" dealers in the purchase and sale of Pianos and Player-Pianos.

AUSTRIA HAS A GENERAL STRIKE

Men Quit Work in War Factories and Discontent Spreads Throughout Empire.

LONDON, Jan. 21.—A general strike is on throughout Austria, according to an Exchange Telegram company dispatch from Paris today, which reports 100,000 men quitting work in Vienna and Neustadt, closing down all the war factories. The strikers are described as openly anti-German and the movement as both political and economic and especially aimed at securing public demonstrations. It is added, have been held in many places, at which hostility was voted toward Berlin for trying to force the Austrians to continue the war.

AMSTERDAM, Jan. 21.—Sparks of sedition are spluttering behind the hermetically sealed frontiers of Austria-Hungary, threatening at any moment to whip the empire's wide discontent into flames of open revolt.

So widespread and intense is this discontent that the very troops detailed to keep the borders closed and the news from filtering through are instrumental in keeping the world posted on the progress of Bolshevism in the Hapsburg domain.

Strikes and riots, mutinies and peace demonstrations are the order of the day. Some of the largest plants are affected and the prospect of a nationwide munition strike looms big. Vienna, Budapest and Legue are hotbeds of political propaganda.

One of the largest Austrian munition plants, just outside of Vienna, at Wiener-Neustadt, is immediately with-

in the scope of the peace agitation, as are the big Skoda works outside of Pilsen.

Upon the output of these Austrian plants Germany relies to a material extent in connection with her much heralded offensive in the west. She has called every available man to the colors, including thousands previously exempted, to turn out munitions. With the Italian danger to Trieste and Lelbach removed by German aid, Hindenburg insists upon so many million pounds, not of flesh, but of munitions, from Austria.

Germany Alarmed.

It is now clear, from advices that reached here during the last twenty-four hours, that Germany, gravely alarmed over the inevitable effect of Bolshevism upon her army and navy and her home front, was determined to break off with the Russians at Brest-Litovsk, but was prevented in the eleventh hour from doing so by Count Czernin, the Austrian foreign minister, who has pledged peace to the Austrian people in unequivocal terms.

So irresistible is the Austrian people's demand for peace that one diplomat who knows the situation accurately ventured this remark tonight:

"If Czernin went back to Vienna and told his people peace negotiations were definitely off, he would be mobbed forthwith."

The Bolsheviki, on their part, fully aware of this situation behind the Austrian borders, can afford to bide their time and stick to their original terms, it is argued.

Cause of Unrest. Four factors were cited here tonight as the underlying causes of the Austro-Hungarian unrest:

1.—Food and fuel are scarcer and dearer than ever before.

2.—Ninety per cent of Austrians and Hungarians are intensely hostile and bitter against Germany, whom they accuse of delaying peace. Fearing absolute vassalage to Berlin, they clamor for peace now, lest Germany aggrandize herself by further conquests in the west.

3.—The speeches of Premier Lloyd

George and President Wilson, and the peace aims of the British Labor party have raised the cry among the alien races. "Our enemies promise to give us what our own government refuses to grant—Independence."

4.—The Austrian industrial world fears a "war after the war" if the conflict lasts beyond spring.

TEXAS DEPOT BURNED.

PORT ARTHUR, Texas, Jan. 21.—The freight depot of the Kansas City Southern railroad was destroyed by fire of unknown origin early yesterday, causing an estimated loss of \$100,000.

Firemen prevented the blaze from spreading to the yards, where hundreds of cars containing export shipments are awaiting their turn at the dock.
